Yapay Zeka ve Uygulamaları - Copyright © 2026

Onceuponabot

- Yapay zeka kullanılarak hikaye yazma platformudur.
- Hikaye yazısı için bir konu fikri yazıyorsunuz veya hiç fikriniz yoksa yardım alabiliyorsunuz. Daha sonra da istediğiniz konuya yönelik bir bölüm yazıyor. Hikayenin ilerleyişini kendiniz belirliyorsunuz. Hem görsel destekli hem de metinlerin İngilizce olarak seslendiriyor.
- Kendi hikaye kitabınızı oluşturmuş oluyorsunuz. İster pdf ister de diğer kişilerle paylaşabiliyorsunuz.

Once Upon a Bot

Create Characters Bookshelf Get unlimited stories

The Purrfect Pursuit: Clawing for the Crown!

Once upon a time, in a lush jungle, there lived a curious cat named Whiskers. He dreamed of being the king, even though lions ruled the land. With determination in his heart and a plan in his mind, Whiskers set off on a wild adventure to prove everyone wrong.

Set Sistem GPos Aca PerC BE- LMS EduCYb WPrs Google enV Ynd Çev CHATGPT EBA 3d Hosting PSpd WhApp İndir

Whiskers took a deep breath and approached the mighty Lion King. "Your Majesty," he began gently, "I too dream of becoming king one day. Can you teach me how to be brave and wise like you?" The Lion King looked at Whiskers, a twinkle in his eye. "Come, let us discuss your dream," he said kindly.

your dream," he said kindly.

The Lion King listened intently to Whiskers' dreams. What happens next?

Guide Whiskers on a journey to prove his bravery and wisdom.	Offer Whiskers a chance to learn from the wise old owl.	Introduce a challenge for Whiskers to test his leadership skills.	☐ Your idea here

kullanılmasını artırmıştır. Bu yüzden 21.yüzyıl öğretmenlerinin teknoloji alanında yetkinliği önem arz ettiğinden öğretmenlerin de bu alanda yetkinlik ve farkındalık seviyelerinin yüksek olması bir gerekliliktir. Ancak yapılan araştırmalar öğretmenlerin içerik geliştirmede teknoloji kullanımı konusunda hala zorlandığını göstermektedir (Elmas & Geban, 2012; Yılmaz, Üstündağ, & Güneş, 2017; Demirer, 2013).

Eğitim teknolojilerinin gelişmesiyle sürekli olarak yenileri ortaya çıkan araç ve yazılımlara öğretmenlerin ayak uydurması ve derslerinde bu araçları kullanması zor gelebilmektedir. Aynı zamanda öğretmenler, eğitsel yazılımların kullanımı ve seçimi konusunda pek fazla eğitim görmeden birçok yazılım kullanmak durumunda kalmaktadır. Yaşamın her aşamasında olduğu gibi eğitim sistemine de yansıyan teknolojik değişimlerden öğretmenler de haberdar edilmeli; değişen ve gelişen araç ve gereçleri kullanım becerileri artırılmalıdır (Türkmen, Pedersen & McCarty, 2007).

Eğitimde bilgisayarın, internetin önemi artmaktadır. Bu yüzden okullarda bilgisayar sayıları artmakta, yeni yazılımlar hazırlanmakta ve öğretmenlerin bu konuda eğitim almaları çalışılmaktadır. Bu bağlamda, FATİH Projesi, öğretmen ve öğrencilere tablet bilgisayar dağıtımı, dersliklere etkileşimli tahta kurulumu, okulların internet alt yapılarının güçlendirilmesi ve eğitim içeriklerinin elektronik ortamlara taşınması gibi hedefler ortaya koymuştur (MEB, 2013). Bu donanımların kullanılarak içeriklerin oluşturulması görevi öğretmenlerimize düşmektedir (MEB, 2012).

Baydaş, Gedik ve Göktaş (2013), ilköğretim öğretmenlerinin derslerinde teknolojinin nasıl kullandıklarını ve bunun 2005'ten 2011'e kadar nasıl bir değişim gösterdiğini gösteren bir çalışma yapmıştır. 2011 yılına ait verilerde öğretmenlerin donanımlarda sıklıkla bilgisayar, projeksiyon cihazı ve yazıcıyı; yazılımlarda ise sıklıkla kelime işlemci, internet tarayıcı ve sunu araçlarını kullandıkları ortaya çıkmıştır. Sıklıkla kullanılan yazılım ve donanımların

The text provided doesn't clearly state the specific topic of this publication. However, it mentions "Dijital Öykü" which could mean 'Digital Story' in Turkish. This, combined with references to learning theories, teaching methods and techniques, and cyberbullying awareness among teachers, could suggest it's about digital educational methods or the digital narrative in an educational context. Without more detail, a definitive answer can't be given.

digital story awareness. As a result of the analysis of the data, it was seen that the teachers mostly (44.9%) saw the level of computer use as moderate, whereas there were 32 (21.8%) teachers who had no difficulty in using computer software while creating the course content. It was determined that almost half of the teachers (46.9%) heard about the concept of digital story, but very few (21.1%) of the teachers who created digital stories before. "Digital story" has started to gain importance as a powerful teaching and learning tool. When the literature on digital stories is examined, it is seen that digital stories are mostly created with desktop computer software. However, it is seen that there are video creation sites on the internet that can be used in digital story studies and the number of such sites is increasing day by day. Teachers' use of digital storytelling to create content depends on their awareness of these software and their ability to use technology sufficiently.

In these days, computer games are the most important entertainment tools for children. Computer games have turned into a major industry that should be carefully considered. As the game industry grows, the effects have seen in our country and so gaming culture is developing in Turkey. Therefore, it is important to examine Turkey's situation on this area. This study was designed to investigate the views of middle school students and their parents about computer games and to determine the effects of computer games about students. The study group is consisted of 215 people that are the parents of the second grade students from 6 elementary schools. The survey is developed according to literature and based on expert opinions. The collected data were evaluated with statistical methods. According to the survey families set rules for their children on computer games. The number of families that make their children conscious of computer games are less than the families that set rules. Families should make their children conscious of the harms of computer games rather than putting them on rules. According to the results, families determine rules in order

Bilgisayar Oyunlarına İlişkin Ailelerin Görüşleri ve Öğrenci Üzerindeki Etkilerin Belirlenmesi

Hüseyin Çakir | Time Saved: 19 mins

Çocukların günümüzde kullandığı en önemli eğlence araçlarının başında bilgisayar oyunları gelmektedir.

Bilgisayar oyunlarını kitap ve filmlerden ayıran en önemli fark, etkileşim olanağı sağlaması ve denemeler yapılmasına izin vermesidir.

Televizyon izleme, bilgisayar kullanımı gibi yerleşik meşguliyetlerin Amerika'daki çocukların %25'inin aşırı kilolu veya obez olmalarında önemli rolü olduğuna inanılmaktadır.

Bu durumların ise çocuğun sosyalleşmesini ve akademik başarısını olumsuz yönde etkileyeceği düşünülmektedir (Horzum, 2011) .

Ailelerin %20,0'si bilgisayar oyunlarının çocuğun başkalarının acı çekmesinden ve ölmesinden zevk almayı öğrenmesine neden olma durumuna katılıyorum, %12,6'sı kararsızım, %67,4'ü katılmıyorum cevabını vermiştir.

What is Artificial Intelligence?

Artificial intelligence is intelligence demonstrated by computers, as opposed to human or animal intelligence. " Intelligence" encompasses the ability to learn and to reason, to generalize, and to infer meaning.

Answer · GPT-4

Clean water indicator species are organisms that are sensitive to pollution and can provide insights into the health and quality of a water body. These species are intolerant to pollution, and their presence or absence can help determine the water quality [2]. Some examples of clean water indicator species include:

1. **Insect larvae**: Mayfly and Stonefly larvae are not tolerant of low oxygen levels in water, making them good indicators of clean, unpolluted water [1].
2. **Freshwater mussels**: These sessile organisms are fixed in one place and can serve as indicator species for both fresh and saltwater environments [3]

Ask follow-up...

4. **Amphibians**: Frogs and toads are strong indicator species for pollution due to their

5. **Crayfish**: These animals can indicate the quality of freshwater, as changes in water acidity are stressful to them [5].

Monitoring clean water indicator species, along with other water quality tests such as clarity monitoring and chemical testing, can provide a comprehensive understanding of a lake or river's health and ecosystem [2]. Indicator species serve as surrogates for the overall well-being of plant and animal life in a particular environment, making them va assessing water quality and environmental health [3].

This paper aims to present the analysis and synthesis of studies in Mobile Augmented Reality in health education, with a critical approach, and to develop suggestions for future researchers. The use of Mobile Augmented Reality technology has shown recently an improvement in teaching and instructing methods, several scientific articles and researches showed how this new technology has a positive impact on education and improving the learning and teaching methods and also has a positive impact on student's performance. A basic qualitative method was used, Therefore, a total of 52 studies including theses and articles submitted electronically between 2010-2020, were obtained from the National Dissertation database and Dergi Park. The result of those articles has shown different relationships between variable factors selected in health education and Mobile Augmented Reality, and the findings indicated that most of the studies used the academic scale assessment tool to find out how this technology positively affected student's performance and their academic achievement. In addition, the findings in this study suggest that there should be more experimental studies especially when there is a new development and models are

Beatoven.ai, yapay zeka teknolojilerini kullanarak, kullanıcıların müzik üretmelerine ve beste yapmalarına olanak tanıyan bir online yazılım platformudur. Bu platform, müzik prodüksiyon sürecini hızlandırmak ve kolaylaştırmak için geliştirilmiştir.

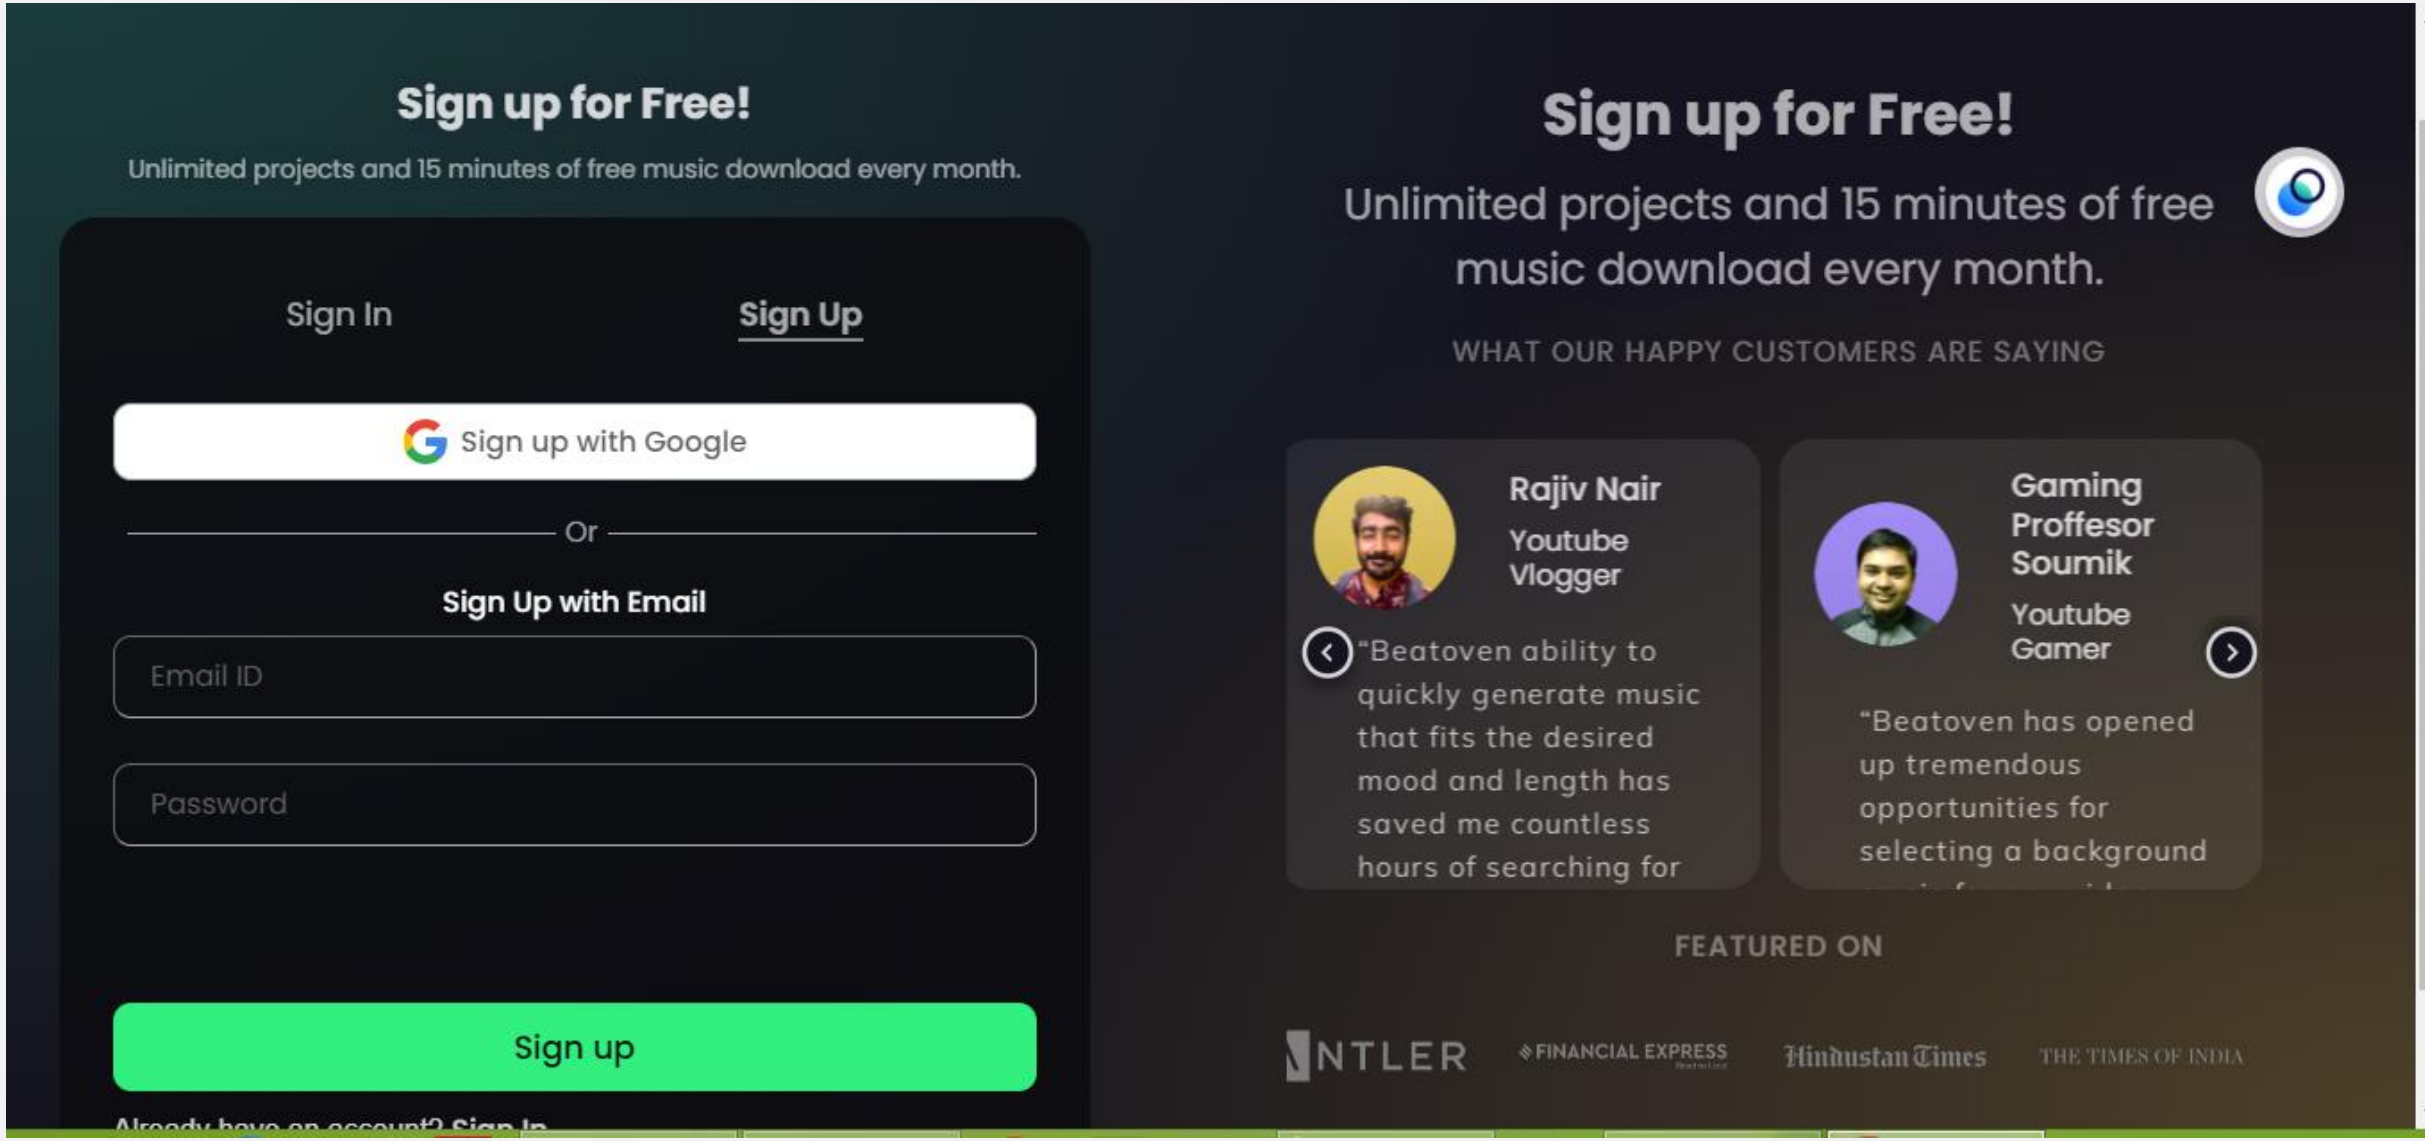

Beatoven.ai, kullanıcıların müziklerini oluştururken, yapay zeka algoritmalarını kullanarak otomatik olarak armoni, melodi ve ritimleri birleştirir. Bu, kullanıcılara, birçok farklı müzik tarzında yüksek kaliteli beste üretmelerine olanak tanır. Kullanıcılar, Beatoven.ai web sitesine kaydolabilir ve arayüzü kullanarak birçok farklı müzik aletini birleştirerek kendi müziklerini oluşturabilirler.

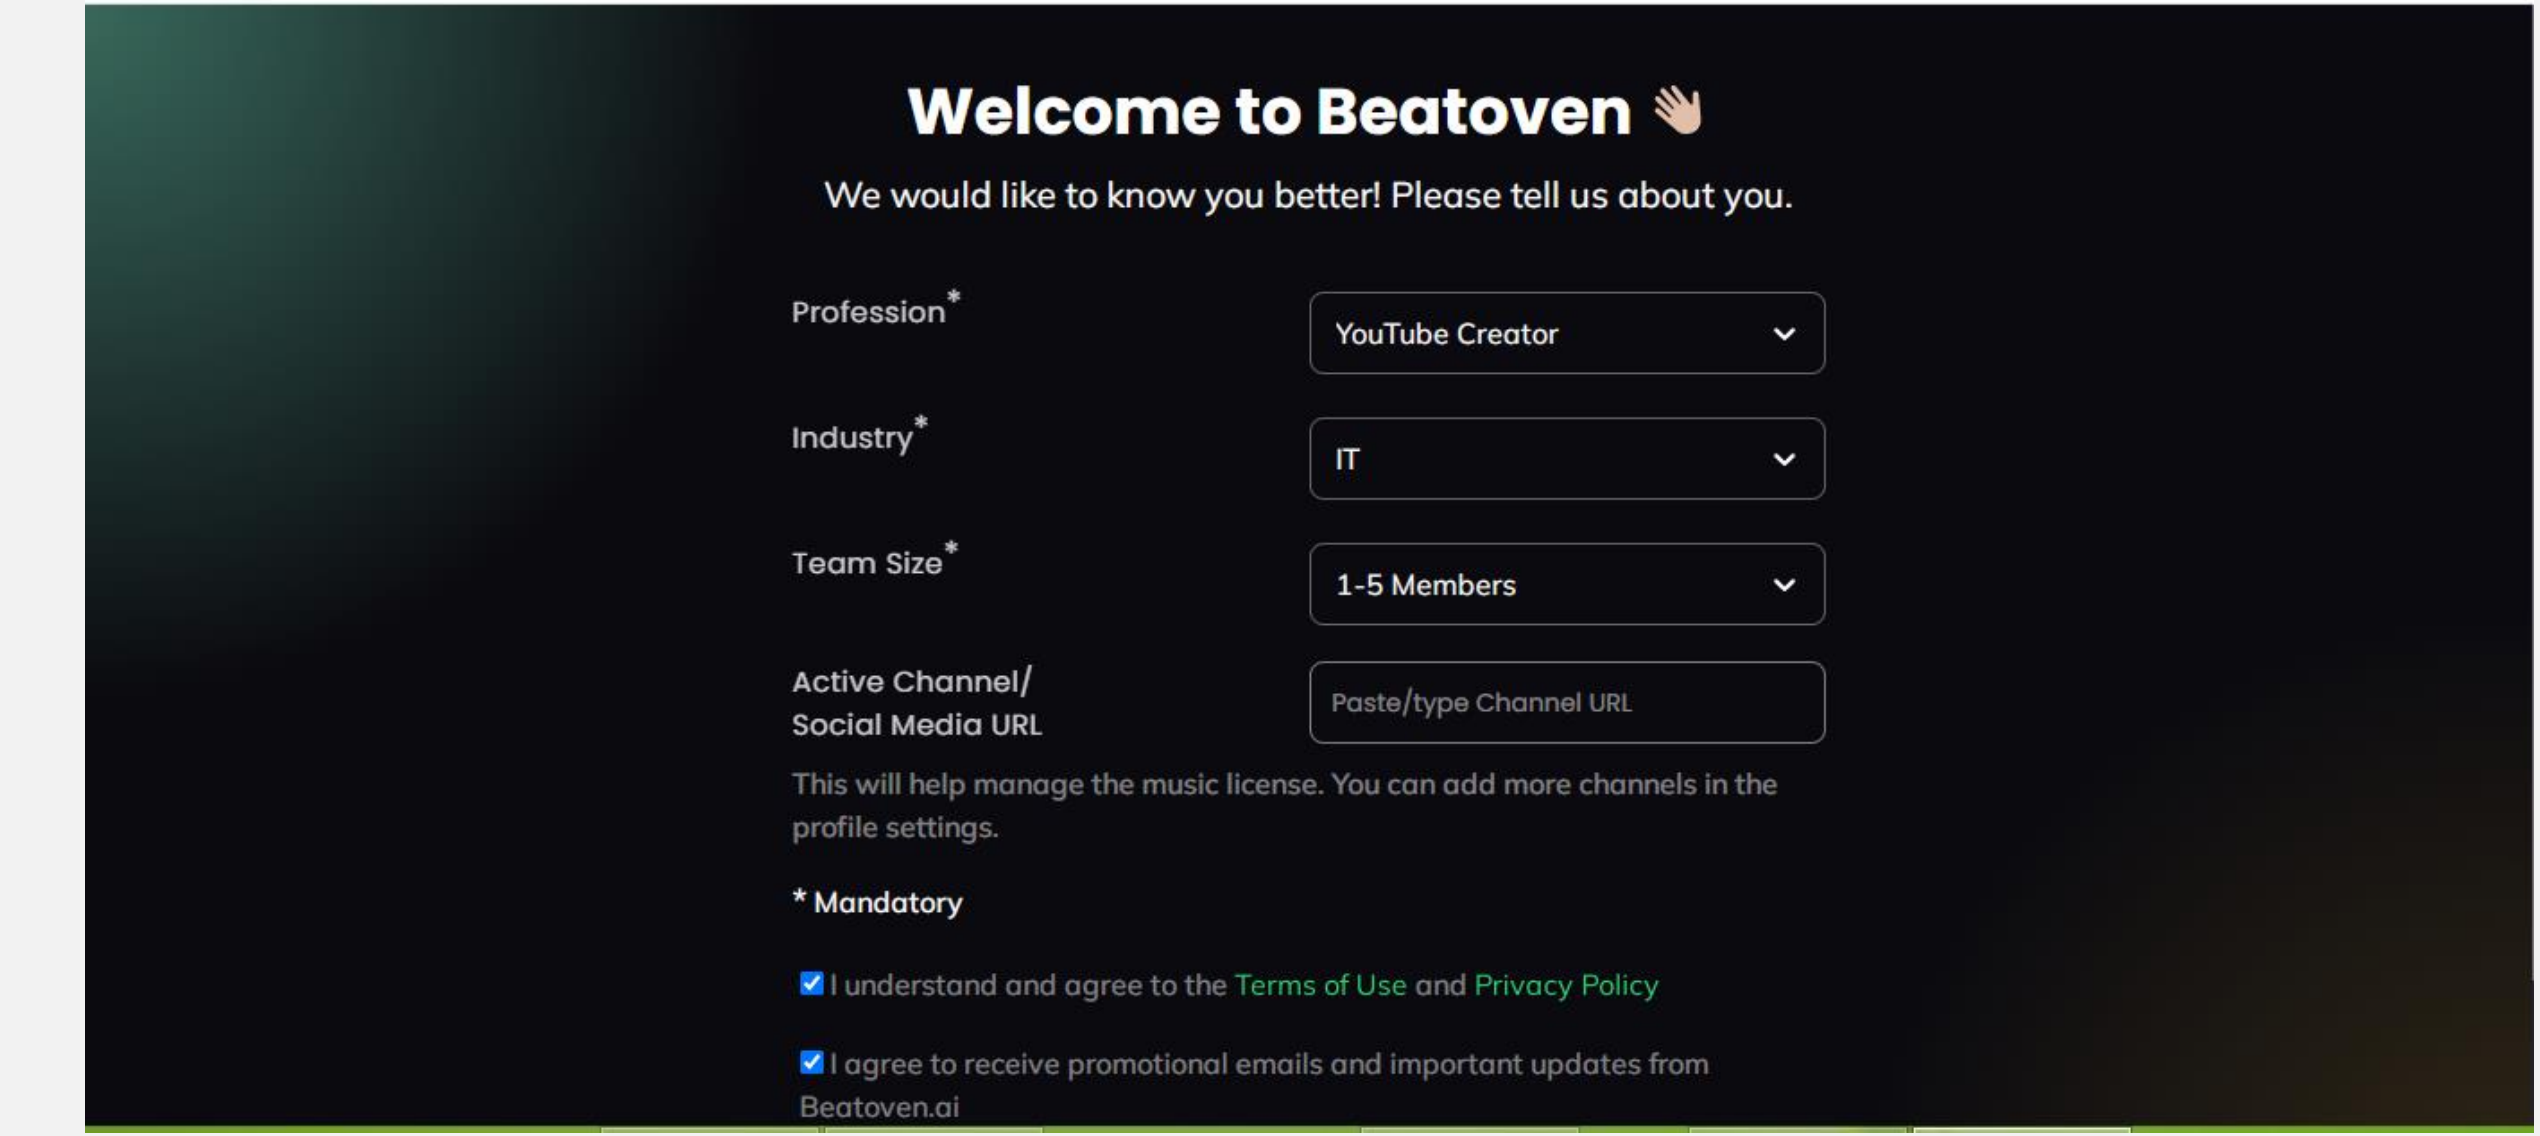

Beatoven.ai ayrıca, kullanıcılara müziklerini paylaşabilecekleri bir topluluk platformu sunar. Kullanıcılar, kendi müziklerini paylaşabilir ve diğer kullanıcıların ürettiği müzikleri dinleyebilirler. Bu, müzik üretimi sürecindeki işbirliği ve paylaşımı teşvik eder.

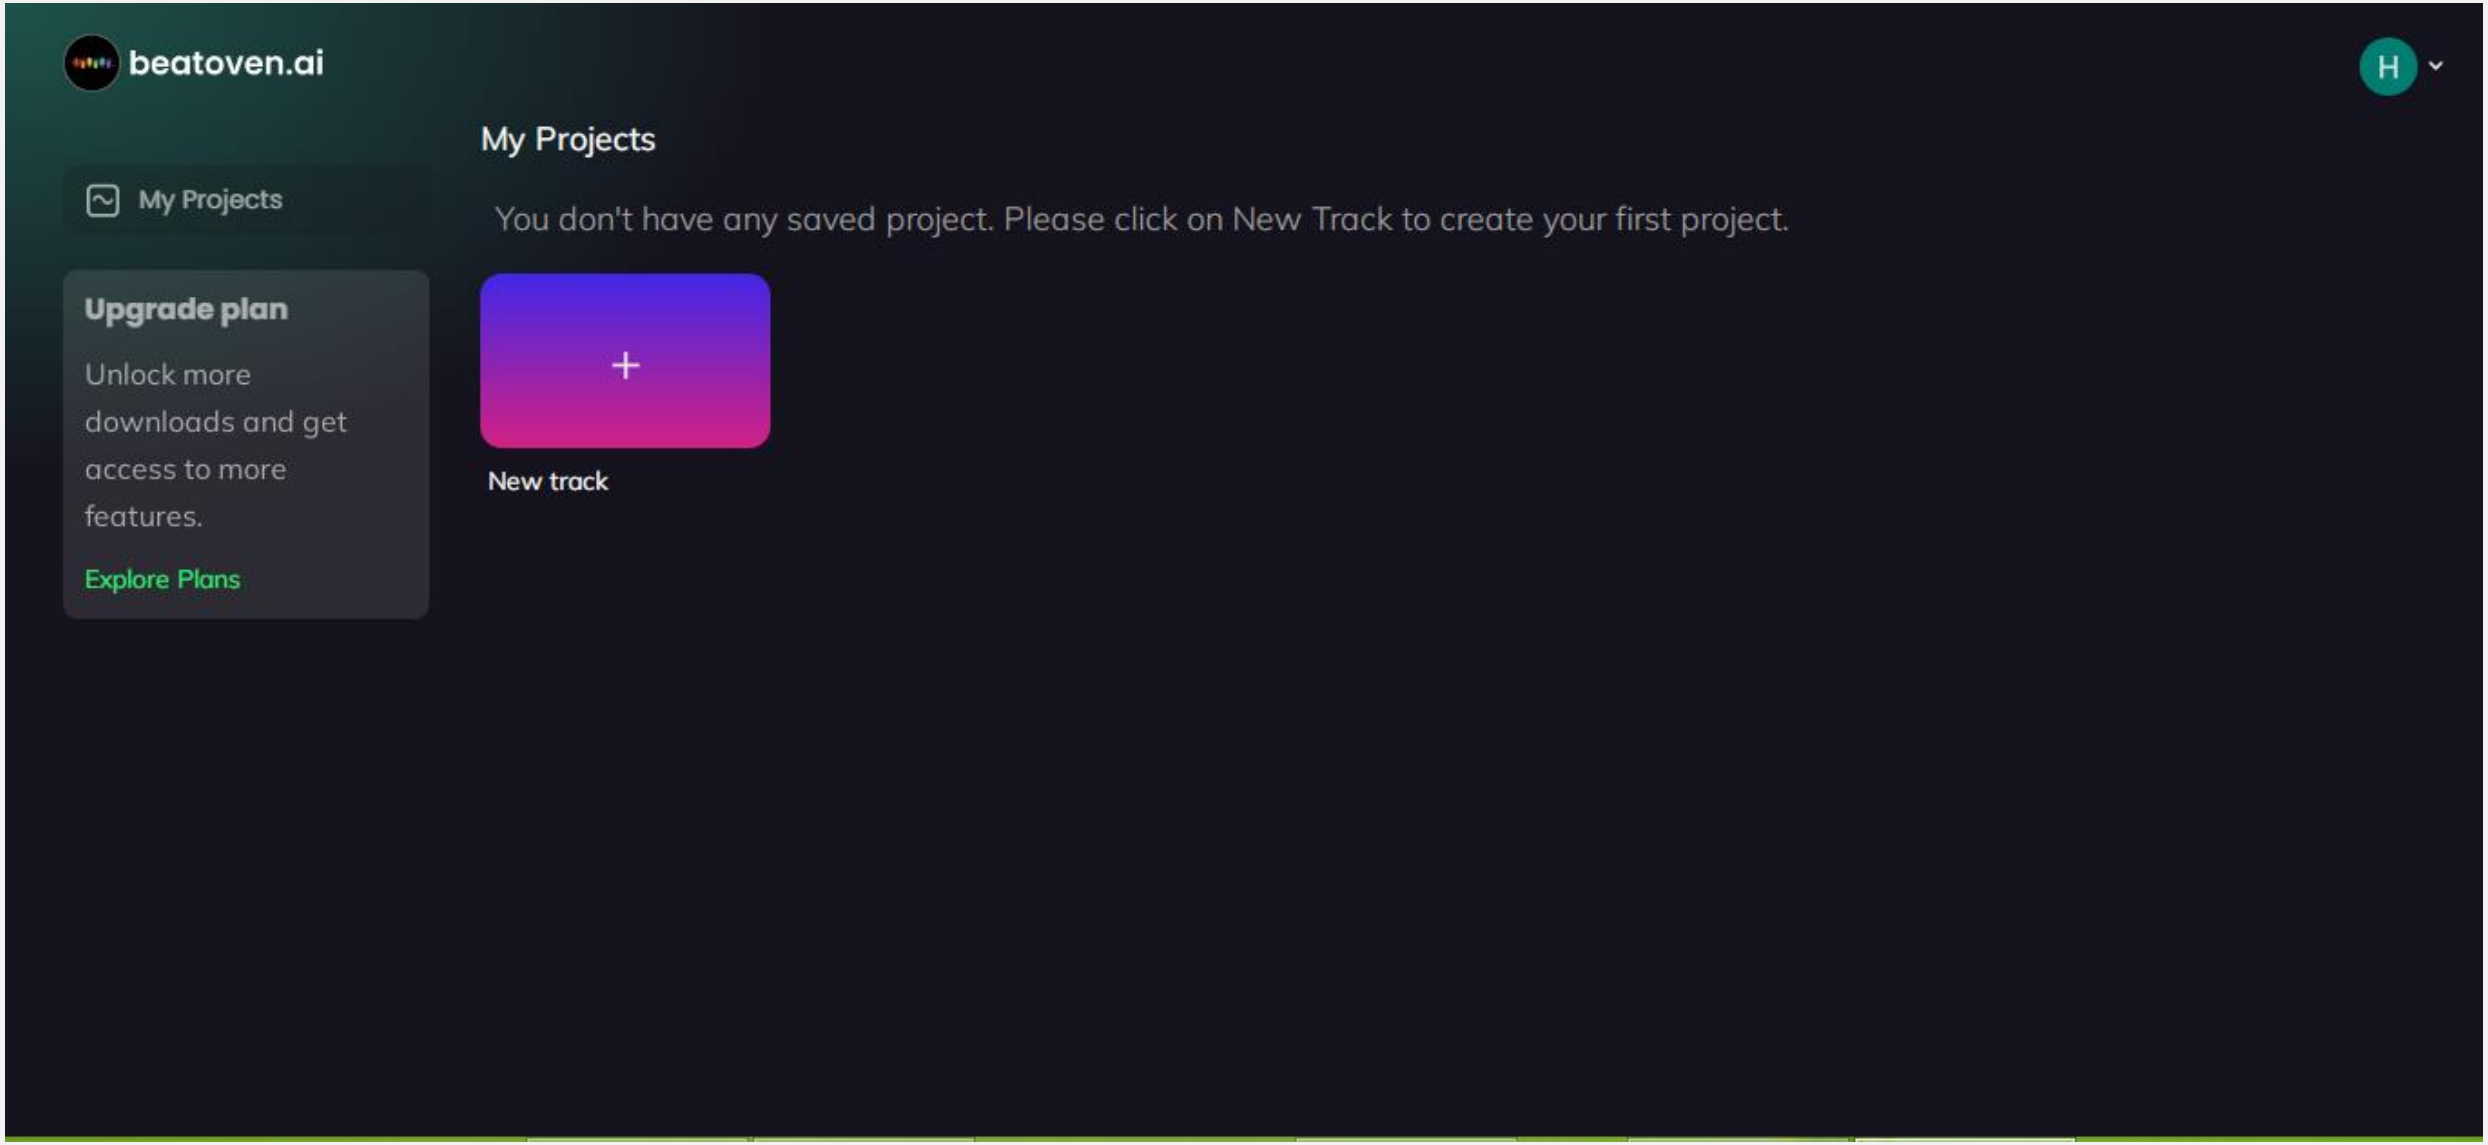

Genel olarak, Beatoven.ai, müzik üretim sürecini kolaylaştıran güçlü bir online yazılım platformudur ve müzik yaratıcılarına yeni bir yaratıcı ortam sunar.

Cleanvoice AI, ses kayıtlarından dolgu sözcüklerini (örn. uh'lar, um'lar) ve ağız seslerini (örn. dudak şapırdatma) kaldırmak için kullanılabilen bir yapay zeka aracıdır.

Kayıtlardan takılma ve ölü havayı çıkarmak için de kullanılabilir. Yapay zeka çok dillidir ve Almanca ve Fransızca da dahil olmak üzere birçok dilde dolgu seslerinin yanı sıra diğer ülkelerdeki aksanları algılayabilir ve kaldırabilir.

Ayrıca, kayıtlardaki tıklama, dudak şapırdatma ve kekemeliği algılayabilir ve kaldırabilir. Cleanvoice AI, kullanıcıların kayıtlarının zaman çizelgesini düzenleyicilerine aktarmalarına ve Cleanvoice'un neyi düzenlemek istediğini göstermesine olanak tanıyan bir zaman çizelgesi dışa aktarma özelliğine sahiptir.

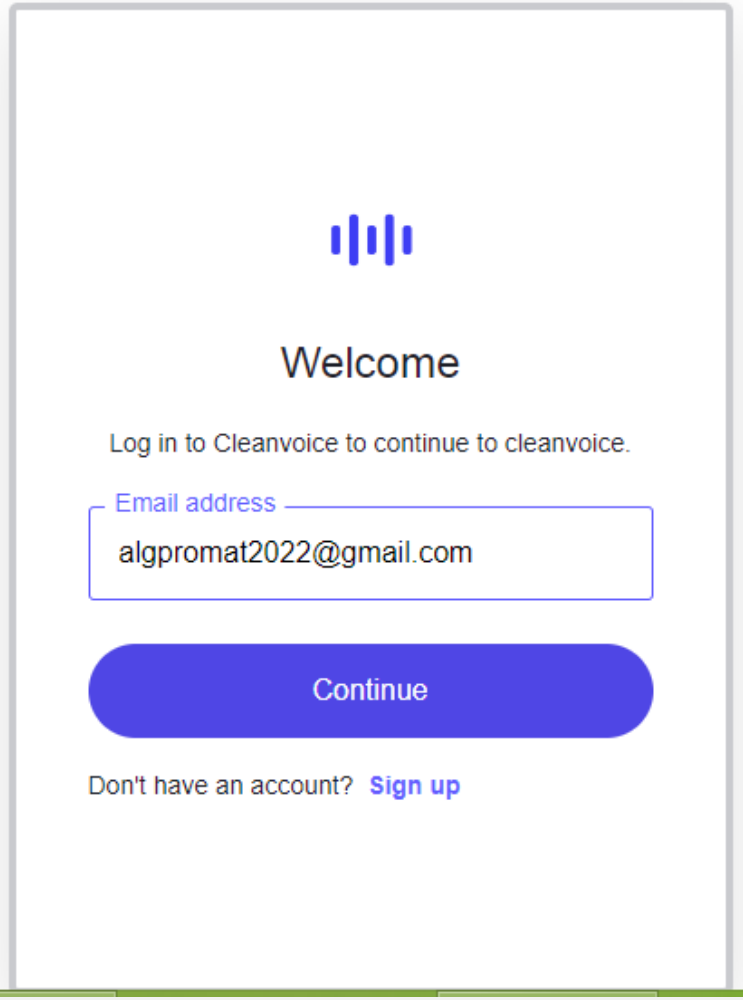

Bu, kullanıcıların düzenleme sırasında daha fazla kontrole sahip olmalarını ve zamandan tasarruf etmelerini sağlar. Cleanvoice AI ayrıca kredi kartı gerektirmeden 30 dakikalık ücretsiz bir deneme sunar.

Podcastle, profesyonel ve amatör podcast yayıncılarının prodüksiyon kalitesinde podcast'leri kolayca oluşturmasına, düzenlemesine ve dağıtmasına yardımcı olan yapay zeka destekli bir ses ve video oluşturma platformudur.

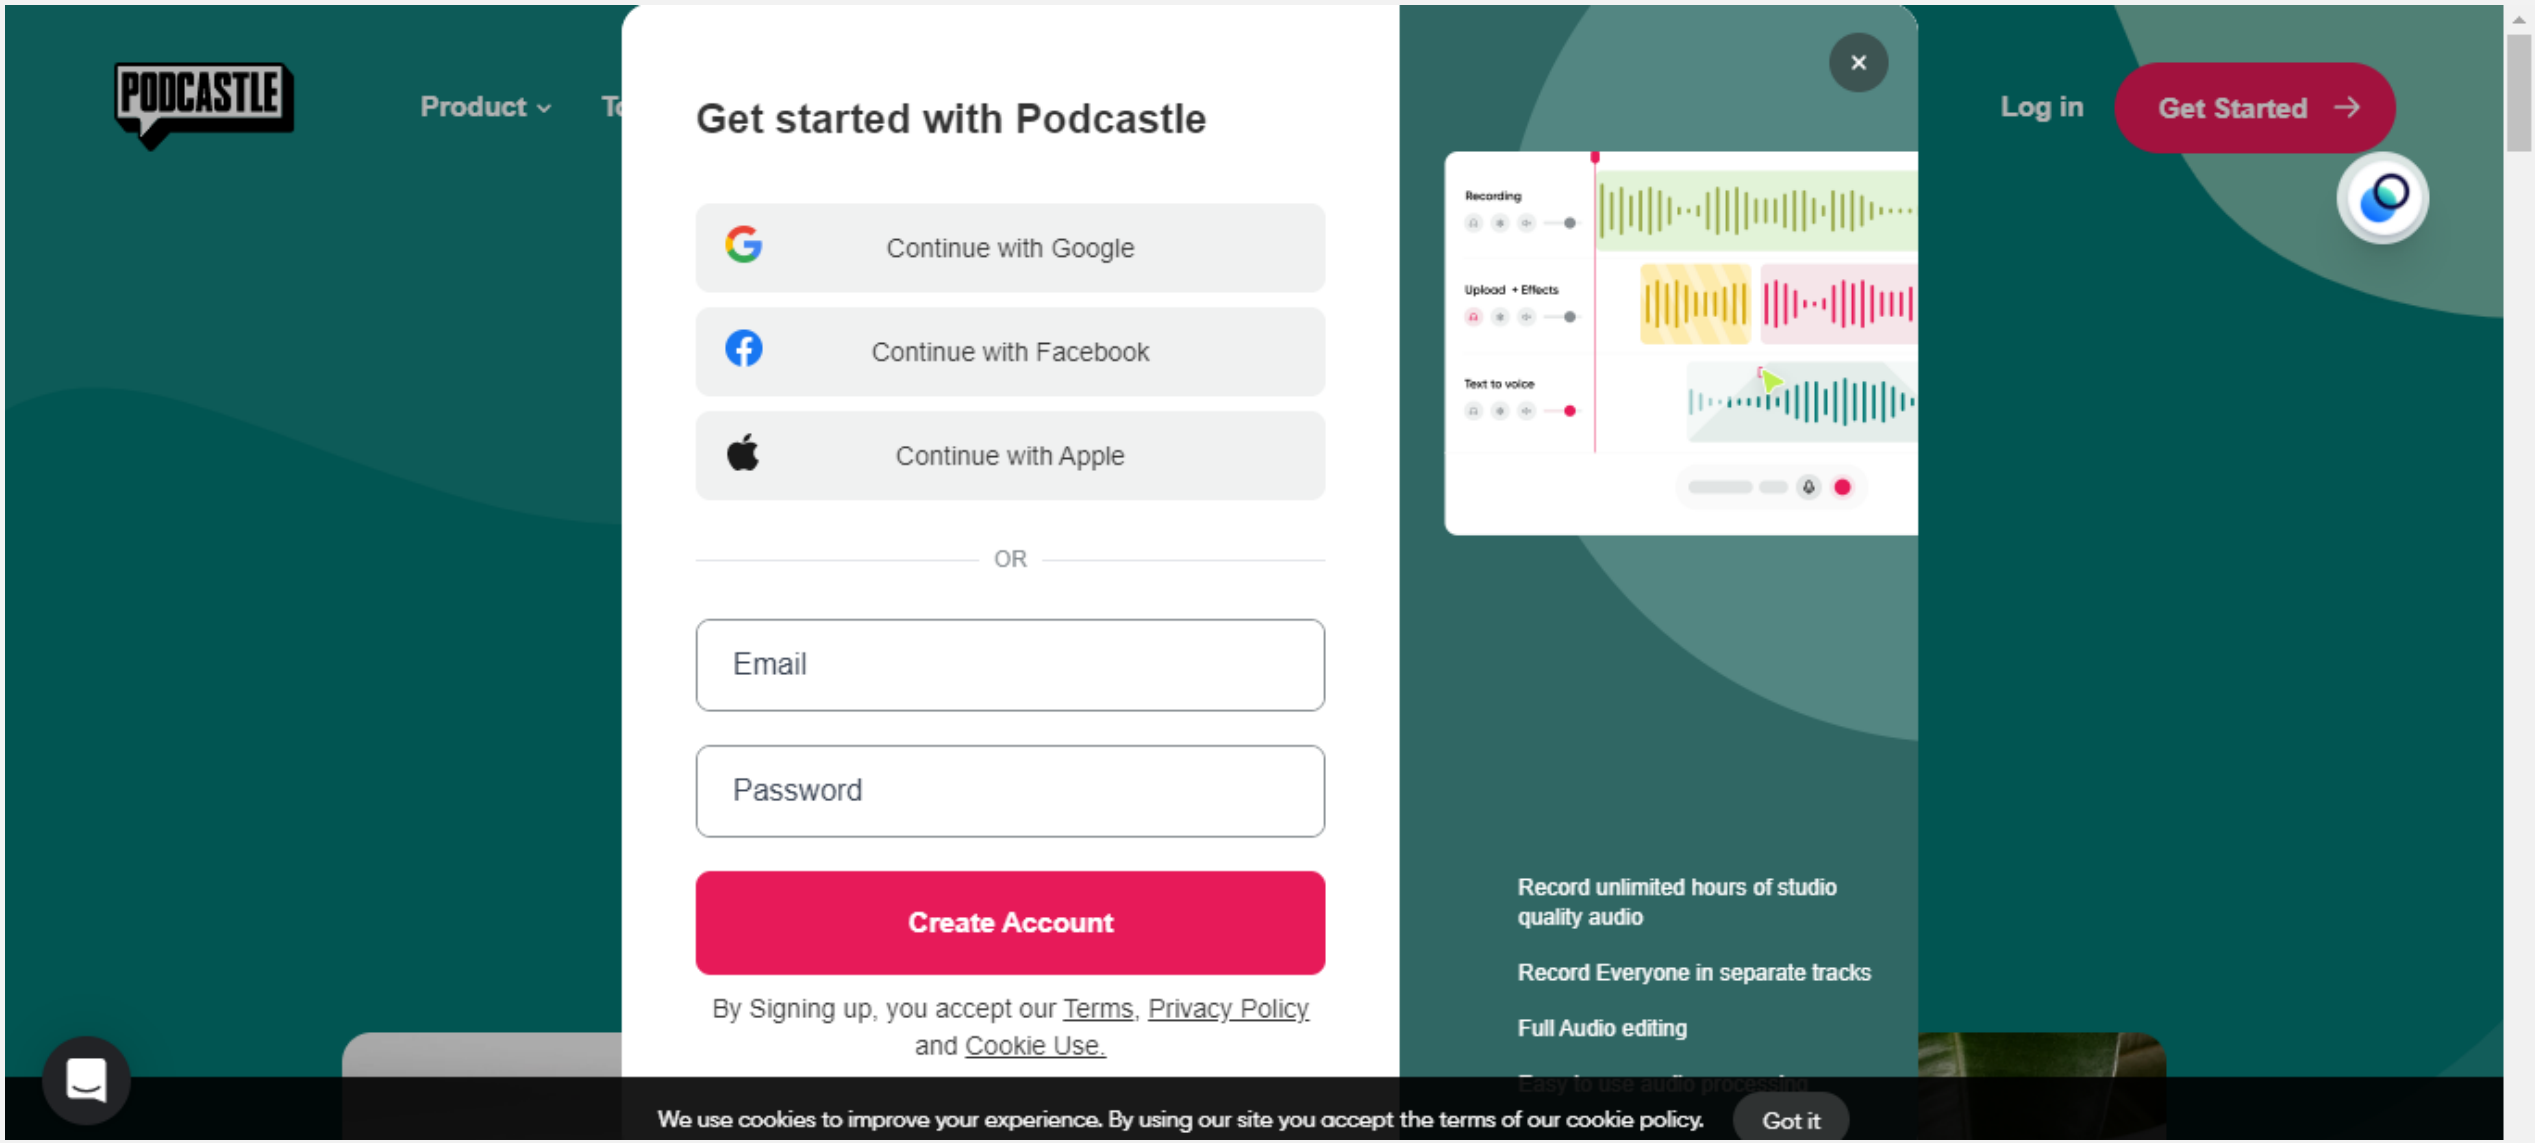

Platform, kullanıcılara ses ve video kaydetmek ve düzenlemek ve 10'a kadar katılımcıyla yapılan uzaktan görüşmelerden podcast'ler oluşturmak için bir dizi araç sağlar.

Stüdyo kalitesinde kayıtlar, yapay zeka destekli düzenleme ve sorunsuz dışa aktarma, tek bir web tabanlı platformda gerçekleştirilebilir. Araçlar arasında çok kanallı kayıt, ses transkripsiyonu, sezgisel düzenleme, metinden konuşmaya, Sihirli Toz, Ses ve Sessizlik Kaldırma'nın yanı sıra arka plan gürültü giderme, dolgu sözcüğü algılama, sesten metne ses gibi yapay zeka destekli bir dizi araç bulunur , podcast kaydı, MP3'ten metne ve format dönüştürme.

Podcastle, hareket halindeyken kayıt yetenekleri sağlamak için iOS ve Android uygulamaları da sunar. Platform, kullanıcıların deneyim düzeyleri ne olursa olsun hikayelerini paylaşmak ve izleyicileriyle bağlantı kurmak için podcast'ler oluşturmasını kolaylaştırmak için tasarlanmıştır.

Yapay Zeka ve Uygulamaları - Copyright © 2026

Vidyo.ai, TikTok, Reels ve Shorts gibi çeşitli sosyal medya platformları için uzun biçimli podcast'leri ve videoları daha kısa, daha paylaşılabilir kliplere dönüştürmenin kolay ve verimli bir yolunu sağlayan yapay zeka tabanlı bir içerik yeniden kullanım platformudur.

AI Alt Yazıları (video alt yazıları), içeriğin amacını değiştirme, videoyu yeniden boyutlandırma, video kırpma, otomatik video bölümleri, Alex Hormozi alt yazıları, CutMagic™ (sahne değişikliği algılama), Grant Cardone alt yazıları ve sosyal medya şablonları gibi özellikler sunarak tüm süreci basitleştirir. .

İçerik oluşturucular, zamandan ve emekten tasarruf etmek ve çevrimiçi varlıklarını önemli ölçüde büyütmek için bu platformu kullanabilir. Vidyo.ai, video içeriğini birden fazla platform için yeniden kullanmak üzere inanılmaz bir dizi video podcast yayıncısı, video oluşturucu, içerik ekibi ve ajans sunar.

Ayrıca, yüksek performanslı ve görsel olarak çekici videolar oluşturmalarına yardımcı olacak çok çeşitli şablonlar ve kaynaklar sağlar. AI, videolardan en iyi anları otomatik olarak seçerek, düzenleyerek ve altyazı ekleyerek çalışır.

Ayrıca kullanıcıların renkleri, yazı tiplerini, altyazıları ve daha fazlasını değiştirerek videolarını özelleştirmelerine olanak tanır. Platform ayrıca daha kaliteli içerik için 1080P indirme imkanı sunar.

Vidyo.ai, içerik oluşturucuların içeriklerini birden fazla platform için yeniden tasarlayarak içeriklerinden en iyi şekilde yararlanmalarına yardımcı olur. Çevrimiçi varlıklarını hızlı ve etkili bir şekilde büyütmek isteyen içerik pazarlamacıları, video yaratıcıları, podcast yayıncıları ve ajanslar için harika bir araçtır.

Otter

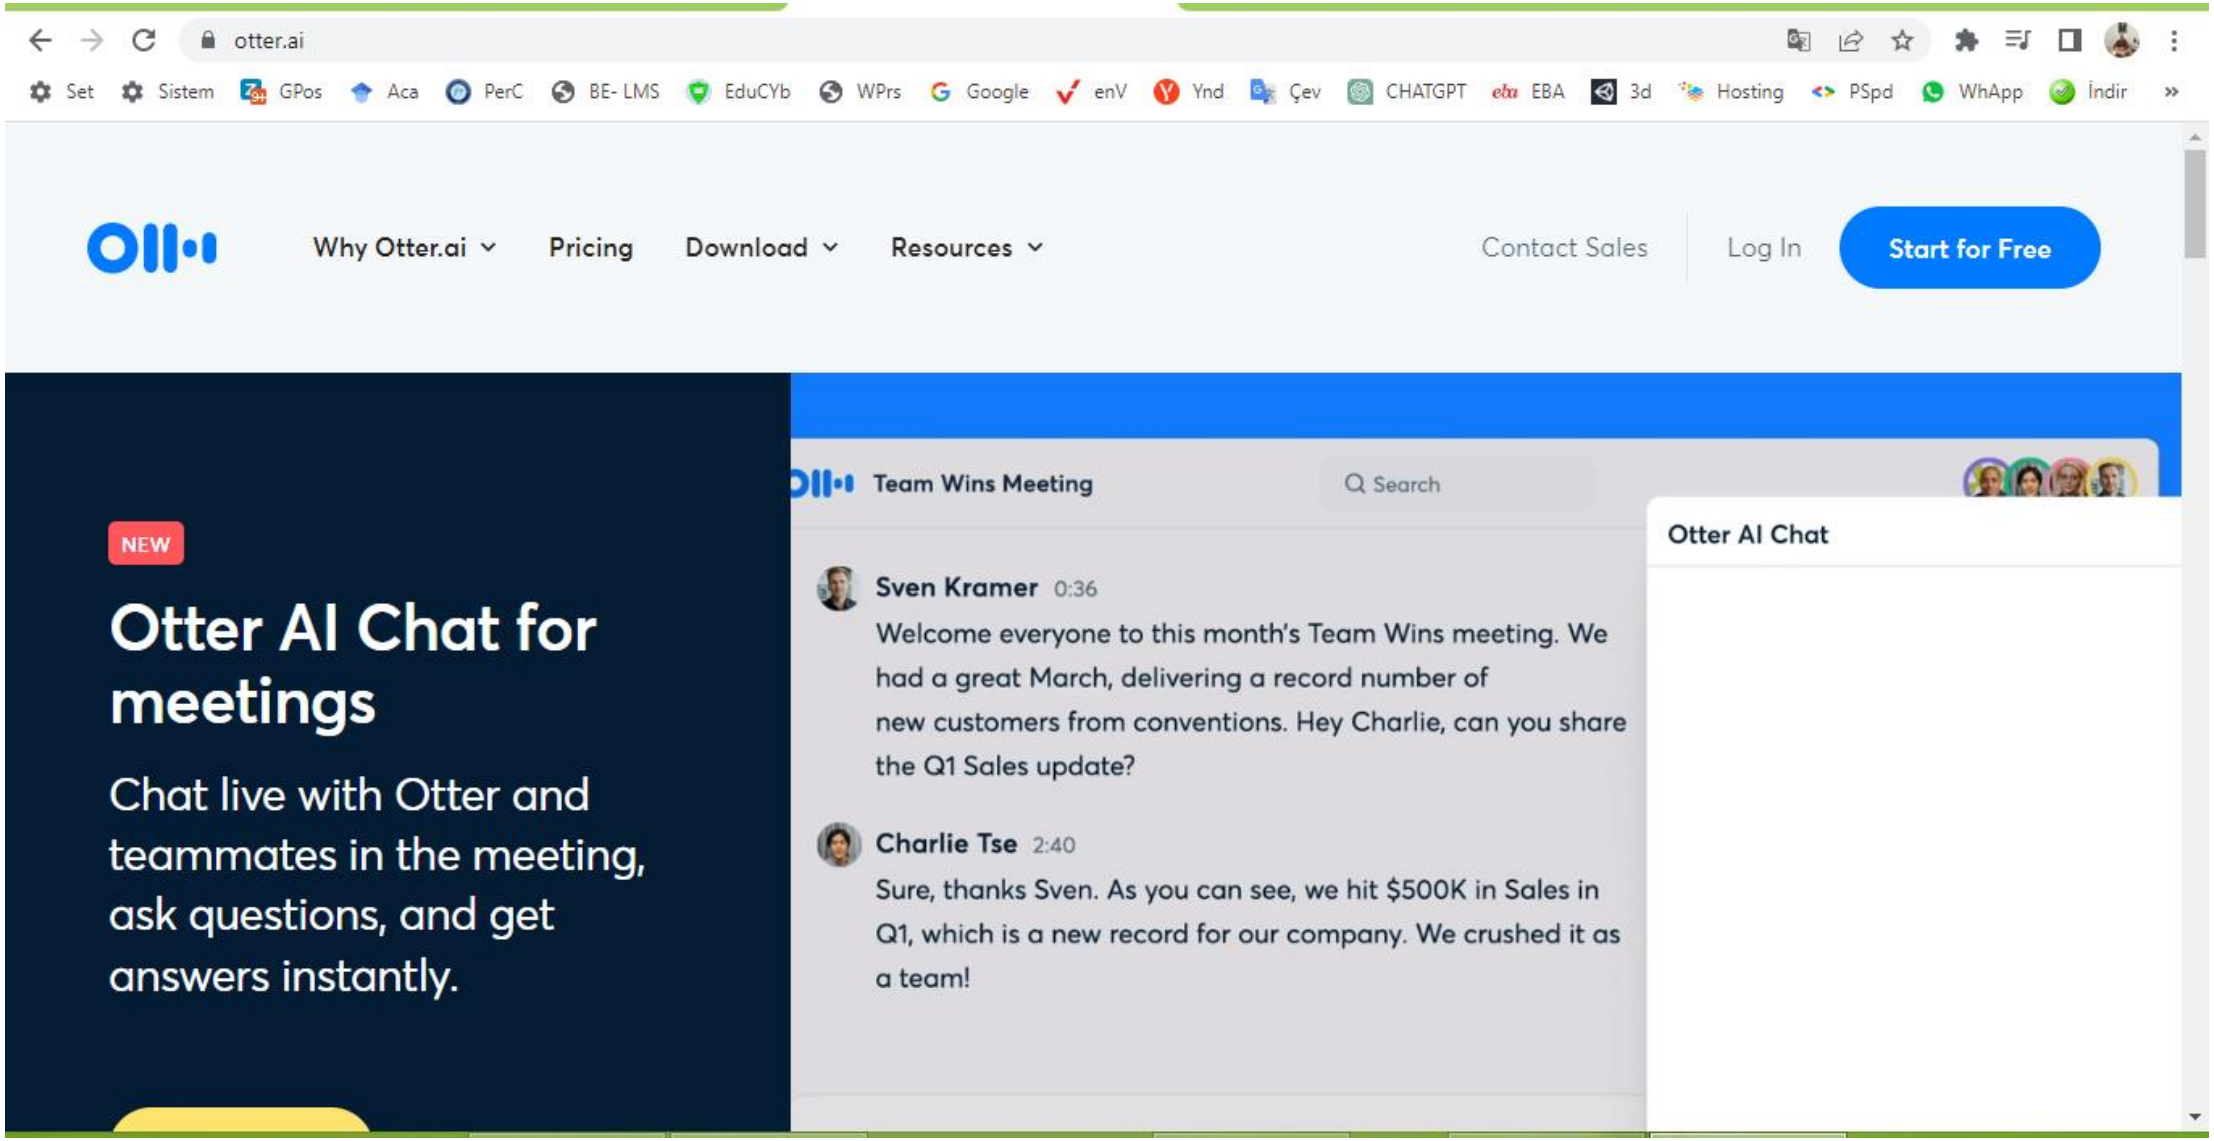

Otter.ai, kullanıcıların toplantıları ve konuşmaları yüksek doğrulukla kaydetmesine ve yazıya dökmesine yardımcı olan yapay zeka destekli bir araçtır. Konuşmaları gerçek zamanlı olarak yazıya dökmek ve paylaşılabilir, aranabilir, erişilebilir ve güvenli notlar oluşturmak için yapay zeka kullanır.

Otter, Zoom, Microsoft Teams ve Google Meet'te toplantılara otomatik olarak katılabilir ve slaytlar yakalayabilir. Ayrıca kilit noktaları vurgular, eylem öğeleri atar ve paylaşılabilen ve kolayca geri çağrılabilen özetler oluşturur.

Otter

Otter, iOS, Android ve Chrome'da mevcuttur ve iş, eğitim ve bireysel kullanım alanlarındaki kullanıcılar, bunun zaman kazandıran, güçlü bir araç olduğunu bulmuştur.

Müşteriler, doğruluğunu, birden çok konuşmacıyı kopyalayabilme yeteneğini ve otomatik slayt yakalama özelliğinin rahatlığını not ettiler.

Sven Kramer 0:36
Welcome everyone to this month's Team Wins meeting. We had a great March, delivering a record number of new customers from conventions. Hey Charlie, can you share the Q1 Sales update?
Charlie Tse 2:40
Sure, thanks Sven. As you can see, we hit $500K in Sales in Q1, which is a new record for our company. We crushed it as a team!

Gemini Notebook

eski adı NotebookLM · adı 16 Temmuz 2026'da değişti

Belgelerini, transkriptlerini ve linklerini yükle;
yalnız senin kaynaklarından cevap veren bir asistana dönüşsün.
Hepsini podcast gibi dinleyeceğin bir Sesli Özet'e bile çevirebilir.

Ücretsiz | notebook.google

Pomelli

Web sitesini tarar; markanın nasıl göründüğünü ve nasıl konuştuğunu öğrenir.
Tek bir istemle markana uygun, paylaşmaya hazır görseller ve kampanya fikirleri çıkarır.

Ücretsiz (beta) | Türkiye'de açık · 18+ | Yalnız İngilizce

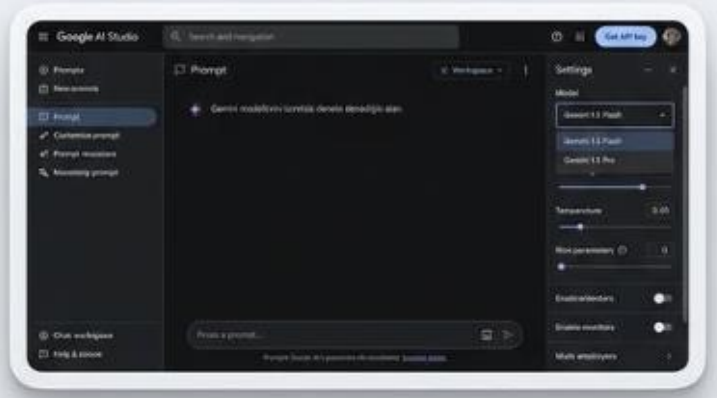

Yapay Zeka ve Uygulamaları - Copyright © 2026

AI Studio

Gemini modellerini ücretsiz denediğin alan.
İstemleri dene, görsel üret, ekranını paylaşıp sesli canlı konuş;
bunun için ücretli plan gerekmiyor.

Ücretsiz · Flash modeller

Hız sınırı var · Pro modeller ücretli

Google Flow

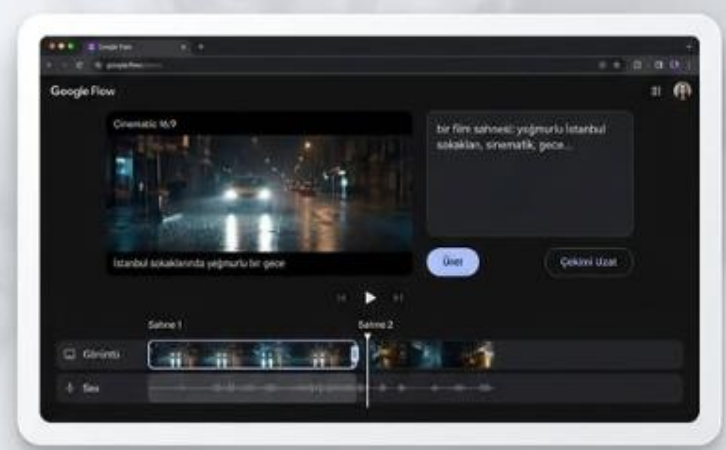

Flow

Google'ın Veo modeli üstüne kurulu film yapım aracı.
Sahneyi yaz, sesiyle birlikte klip üretsin; sonra sıra sıra
doğru olana kadar çekimleri uzat.

Ücretsiz: günde 50 kredi

Fazlası Google AI aboneliğiyle

18+

Stitch

Bir uygulama ekranını anlat; arayüzü ve ona uyan ön yüz kodunu birlikte çıkarır. Ürün fikrini dakikalar içinde tıklanabilir bir prototipe çevirirsin.

Ücretsiz (beta) Günlük kullanım sınırı

Opal

Yerini Gemini'deki skill'ler ve AI Studio alıyor

İstemleri birleştirip kod yazmadan küçük yapay zekâ uygulamaları kurarsın. Akışı bir kez kur, linkini paylaş; herkes gerçek bir araç gibi kullansın.

Ücretsiz · deneysel 17 Kasım 2026'da kapanıyor

Türkiye resmi ülke listesinde yok

7 yerel AI alternatifi:

Claude → Qwen2.5-Coder

Kod yazma, hata düzeltme ve yazılım geliştirme.

ChatGPT → GPT-OSS 20B

Sohbet, analiz ve problem çözme.

Higgsfield → Wan 2.1

Yapay zekâyla video üretimi.

Midjourney → FLUX.1 Schnell

Metinden etkileyici görseller oluşturma.

ElevenLabs → Kokoro

Metinleri doğal seslendirmelere dönüştürme.

Suno → ACE-Step 1.5

Yapay zekâyla müzik üretimi.

Gemini → Gemma 3

Günlük AI görevleri, metin üretimi ve analiz.
